

Family owned electrical wholesale business operating in Buffalo, NY for 99 years is looking to fill two sales positions: an entry level inside sales and experienced inside/outside sales to work Monday through Friday.

## **INSIDE INDUSTRIAL SALES**

Candidate's responsibilities will include directly assisting existing customers with the best solution to their needs, asking the right questions, doing any necessary research, expediting the order and if necessary troubleshooting. Strong people skills with ability to think outside the box will be beneficial. Any electrical background would be helpful.

## **INSIDE/OUTSIDE SALES**

We are looking for a candidate with some Electrical Engineering Background for an opening in our Power Distribution and Motor Control Department. Candidate must be detail orientated, able to review technical drawings and work with both customers and vendors. The position is mainly inside sales but does require outside representation as needed.

401(k), life and health insurance.
